

# Carbon offset portfolio

For every tonne of CO2 you offset, we buy a carbon credit from one of our amazing projects. We also plant trees because trees are awesome and have long lasting environmental impact because they draw down CO2 throughout their lifetime.

## Did you know?

1 tonne of goods shipped from China to Australia =

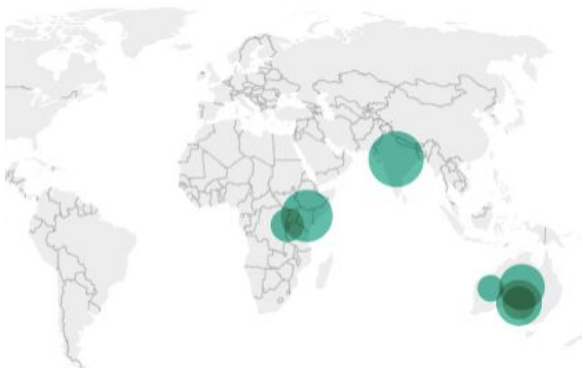

**6,500**  
kgCO2

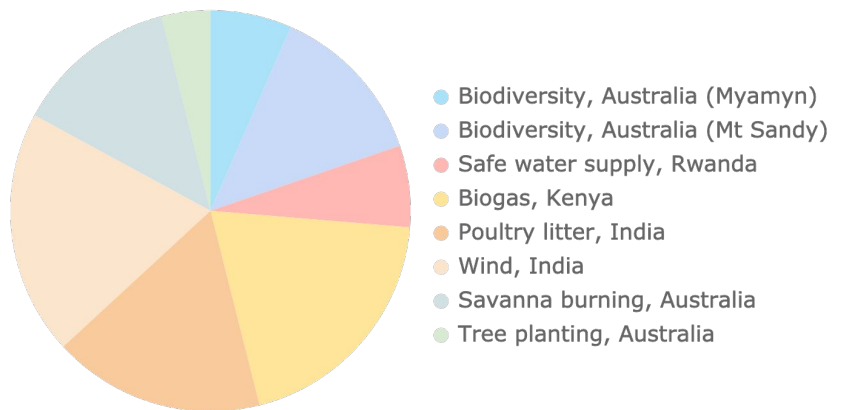

**86**  
kgCO2

## CO2 reduction by project and location

### Funding by project location

### CO2 volume offset per project

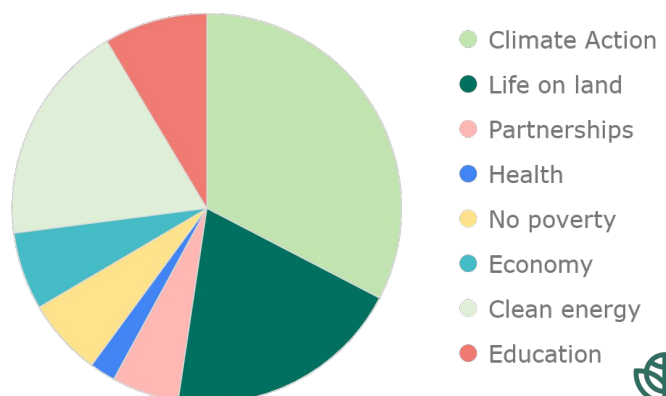

## Project co-benefits - more than just carbon!
